REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Citizens and School Board of the Wentworth School District:

I hereby submit my third annual report as Superintendent of Schools of the district.

Instruction

Several changes have occurred in the teaching staff of the district since the last report. Leonard J. Smith of Newport, a Keene Normal School graduate, is teacher at the village grammar room, and Alice B. Bewley of the primary room. Marion Downing of Wentworth is at the Foster School and Victoria Charras of Manchester is at the Buffalo School. The fundamentals in Arithmetic have been checked and remedial work prescribed.

The enrollment of the Buffalo School has decreased considerably so that in the event of crowding at the village school the scholars on the East side might well be transported there. This seems to be a good temporary arrangement until definite provision can be made for consolidation. The village school has about all the pupils that can be efficiently handled in the present building.

Property

During the summer George F. Plummer of Ashland very kindly consented to give and deed approximately one-quarter acre of land for a play ground at the Buffalo School and same has been fenced. A new toilet was built and the shingling of the school completed together with some minor repairs inside. The shed of the village school and one side of the school building were shingled during the past summer. The primary room ceiling was repaired at the same time.

Conclusion

The budget has been prepared with special reference to low cost without encroaching on the efficiency of the instruction. Although state aid has decreased, the amount asked for is \$477.21 less than last year.

During the year fire drills have been organized and insisted upon throughout the district. The attendance for the district was above the state average and that of Atwell Hill superior, particularly in consideration of the climate and the fact that so many of the pupils do not live conveniently near the school.

Respectfully submitted,

Allan M. McCurdy.
